Gentlemen:

RE: Bonding on ML 29399

Upon inspection of your mining operation on March 24, 1978, the Division of Oil, Gas, and Mining recommended that the bond required to insure reclamation of disturbances caused by your activity on this lease be set at the amount of \$1,552.50. This recommendation is acceptable by the Division of State Lands and you are hereby notified that such bond must be posted with this office within 30 days from date of this letter. Your bond may be in the form of either a cash deposit or a bank certificate of deposit listing both your name and the Utah Division of State Lands as joint beneficiaries. Should you elect the bank certificate form, the original certificate must be held by this office. Such bond will only be held accountable for mining disturbances which you initiated on the property and not for disturbances existing previous to your lease ownership. Failure to submit the required bond within 30 days may result in the cancellation of this lease.

Please contact me should you have questions.

Sincerely yours,

JOHN T. BLAKE  
MINERALS RESOURCE SPECIALIST
